4G LTE Up to 150 Mbps Download

LT500V is equipped with 4G LTE Cat. 4 standard with maximum speed of 150/50 Mbps (DL/UL). Enjoy the convenience of plug and play for network everywhere provided by 4G LTE. Suitable for streaming and surveillance.

Speedy AC1200 Wi-Fi

Dual band Wi-Fi allows newer devices to stream on the more cleaner 5 GHz band, while the legacy or IoT devices can use the 2.4 GHz band, making your Wi-Fi not only faster, but also more responsive.

Software

FDD+TDD

Support FDD and TDD, meet the needs of various ISPs and provide a good user experience for customers. Support most cellular operators around the world.

VPN

With built-in VPN, this router can easily establish a connection to VPN Server to transport all your online data and traffic, securing it with its encryption at the same time.

DDNS

By assigning a custom domain name to your home router's IP address, DDNS function will update automatically as your home IP continues to change. Compatible with 15 more DDNS providers.

Guest Network

Guest Network separate guest access from your family network. Maintain high security across your network to help ensure your privacy is safe while online.
